Office of Special Nutritionals Center for Food Safety and Applied Nutrition Food and Drug Administration 200 C Street, S.W. (HFS-450) Washington, DC 20204

To Whom It May Concern:

Pursuant to section 403(r)(6) of the Dietary Supplement Health and Education Act of 1994 ("DSHEA"), General Nutrition Corporation, located at 300 Sixth Avenue, Pittsburgh, Pennsylvania 15222 ("GNC"), hereby notifies the Food and Drug Administration that it is marketing dietary supplements that bear a nutritional support statement on their labels. Enclosed please find a listing of the products and their statements of nutritional support.

As required, the product labels contain the disclaimer that this statement has not been evaluated by the Food and Drug Administration and that the product is not intended to diagnose, treat, cure, or prevent any disease. Two (2) copies of this notification are enclosed for your convenience.

On behalf of GNC, I hereby certify that the information contained in this notice is complete and accurate and that GNC has substantiation that the statements are truthful and not misleading.

Very truly yours,

Susan Trimbo, Ph.D.

Vice President Scientific Affairs

Enclosures

DESCRIPTION	DATE FILED	00 > STRUCTURE FUNCTION STATEMENT(S)
ARGININE M. C.		
GNC Arginine 1000		Arginine has several roles in the body, such as helping remove ammonia
		from the body which is a waste product of protein metabolism.
ONTHIN ON THE STATE OF THE STAT	-r. In Marie	
GNC Optibolic Chitosan	1/21/00	Studies show that a diet rich in fiber can be beneficial helping reduce the
	<u> </u>	transit time of foods in the digestive system.
COLOSTRUM		
PharmAssure Proventra	1/21/00	LgG provides dietary support for the immune system and helps promote the
		body's natural defense systems.
CREATINE SEE SEE SEE SEE SEE SEE SEE		
GNC Pro Performance Creatine Plus	1/21/00	Supports creatine production and uptake in the body. This formula delivers the key
Transport		amino acids that naturally produce creatine in the body.
GAMMA LINOLENIC ACID (QUA)		
GAMMA LINOLENIC ACID (GLA) GNC Women's Ultra EPO	1/21/00	GLA is an omega-6 fatty acid that acts as a precursor to prostaglandins, hormone-like substances that help to regulate the body processes including hormonal
GAMMA LINOLENIC ACID (GLA) GNC Women's Ultra EPO  L-GLUTAMINE	1/21/00	GLA is an omega-6 fatty acid that acts as a precursor to prostaglandins, hormone- like substances that help to regulate the body processes including hormonal
GAMMA LINOLENIC ACID (GLA) GNC Women's Ultra EPO  L-GLUTAMINE		GLA is an omega-6 fatty acid that acts as a precursor to prostaglandins, hormone-like substances that help to regulate the body processes including hormonal  Because of its unique structure, glutamine is the primary transport of
GAMMA LINOLENIC ACID (GLA) GNC Women's Ultra EPOGLUTAMINE	1/21/00	GLA is an omega-6 fatty acid that acts as a precursor to prostaglandins, hormone- like substances that help to regulate the body processes including hormonal
GAMMA LINOUENIC ACID (GLA)  GNC Women's Ultra EPO GLUTAMINE GNC Pro Performance Glutamine Powder	1/21/00	GLA is an omega-6 fatty acid that acts as a precursor to prostaglandins, hormone-like substances that help to regulate the body processes including hormonal  Because of its unique structure, glutamine is the primary transport of nitrogen into the muscle cell.
GAMMA LINOLENIC ACID (GLA)  GNC Women's Ultra EPO  L-GLUTAMINE GNC Pro Performance Glutamine Powder	1/21/00	GLA is an omega-6 fatty acid that acts as a precursor to prostaglandins, hormone-like substances that help to regulate the body processes including hormonal  Because of its unique structure, glutamine is the primary transport of nitrogen into the muscle cell.  SAMe is a naturally occurring product which has been clinically shown to
GAMMA LINOUENIC ACID (GLA)  GNC Women's Ultra EPO GLUTAMINE GNC Pro Performance Glutamine Powder	1/21/00	GLA is an omega-6 fatty acid that acts as a precursor to prostaglandins, hormone-like substances that help to regulate the body processes including hormonal  Because of its unique structure, glutamine is the primary transport of nitrogen into the muscle cell.  SAMe is a naturally occurring product which has been clinically shown to promote healthy joints.
GAMMA LINOLENIC ACID (GLA)  GNC Women's Ultra EPO GLUTAMINE GNC Pro Performance Glutamine Powder	1/21/00	GLA is an omega-6 fatty acid that acts as a precursor to prostaglandins, hormone-like substances that help to regulate the body processes including hormonal  Because of its unique structure, glutamine is the primary transport of nitrogen into the muscle cell.  SAMe is a naturally occurring product which has been clinically shown to
GAMMA LINOLENIC ACID (GLA) GNC Women's Ultra EPO  -GLUTAMINE GNC Pro Performance Glutamine Powder  SAME GNC SAME	1/21/00	GLA is an omega-6 fatty acid that acts as a precursor to prostaglandins, hormone-like substances that help to regulate the body processes including hormonal  Because of its unique structure, glutamine is the primary transport of nitrogen into the muscle cell.  SAMe is a naturally occurring product which has been clinically shown to promote healthy joints.  SAMe has been shown to support glutathione production, which helps support body's antioxidant system.
GAMMA LINOLENIC ACID (GLA) GNC Women's Ultra EPO  -GLUTAMINE GNC Pro Performance Glutamine Powder  SAME GNC SAME	1/21/00	GLA is an omega-6 fatty acid that acts as a precursor to prostaglandins, hormone-like substances that help to regulate the body processes including hormonal  Because of its unique structure, glutamine is the primary transport of nitrogen into the muscle cell.  SAMe is a naturally occurring product which has been clinically shown to promote healthy joints.  SAMe has been shown to support glutathione production, which helps support body's antioxidant system.
GAMMA LINOLENIC ACID (GLA) GNC Women's Ultra EPO  GNC Pro Performance Giutamine Powder  GAME GNC SAME	1/21/00	GLA is an omega-6 fatty acid that acts as a precursor to prostaglandins, hormone-like substances that help to regulate the body processes including hormonal  Because of its unique structure, glutamine is the primary transport of nitrogen into the muscle cell.  SAMe is a naturally occurring product which has been clinically shown to promote healthy joints.  SAMe has been shown to support glutathione production, which helps support body's antioxidant system.
GAMMA LINOLENIC ACID (GLA) GNC Women's Ultra EPO  L-GLUTAMINE GNC Pro Performance Glutamine Powder  SAMe GNC SAMe  SOY ISOF! MINE GNC Women's Phyto-Estrogen	1/21/00	GLA is an omega-6 fatty acid that acts as a precursor to prostaglandins, hormone-like substances that help to regulate the body processes including hormonal  Because of its unique structure, glutamine is the primary transport of nitrogen into the muscle cell.  SAMe is a naturally occurring product which has been clinically shown to promote healthy joints.  SAMe has been shown to support glutathione production, which helps support body's antioxidant system.  Soy Isoflavone supplementation can help maintain bone density.
